Traceability of cattle ear tags

In the application case of cattle polyurethane ear-tags, each tag contains a number of text strings and a barcode for traceability purposes. High-contrast and resistance to the sunlight or rain, are offered by laser marking. The Arex 50 W performance, meets the customer's needs in terms of quality and throughput. A large-field lens (200x200 mm) is used to mark 4 tags per cycle.

Excellent results are obtained indifferently on green, yellow, white and orange TPU.

AREX 50W

LENS: 420 mm

MARKING TIME: 11 s

MATERIAL: Plastic, TPU
