

# COBOT CORE TRAINING

## CLASS DESCRIPTION

This intense 2-day hands-on training class will combine classroom instruction with a functional robot on your desk.

**There will be one robot for every two students.**

Topics include:

- Set-up
- Program flow
- Optimization of sample applications such as Pick-and-Place, and Palletizing.

This class aims to give students a thorough knowledge of the robot so that they can maximize their own robot's value.

**TUITION: \$1,000**

**Nov 20th & 21st, 2019**

**SIGN UP NOW! Space is very limited.**

## COMMON MANUFACTURING CHALLENGES RESOLVED

- Better Product Consistency Achieved
- Very Long Milling Cycles Optimized
- Talented Workers Bored by Repetitive Work Freed Up for More Complex Tasks
- Space Constraints Eliminated – No Cage
- Staffing Shortages Eliminated
- Bottlenecks Eliminated
- Product Quality Improvement
- Scrap Reduction

Collaborative robots work safely next to people.

## EASY PROGRAMMING

The most intuitive interface in the industry

## WORK CELL ACCELERATION REVIEW

HTE will conduct a *free* work cell acceleration review in your plant. Our focus is on maximizing your goals for productivity, flexibility, quality control, and safety.
